GROUND LEVEL:	5,397 SF +/-
TOTAL SUITEW100	48,936 SF +/-²

¹ Areas indicated are approximate and based on Client provide, non-vector based drawing files. Common Areas (such as service/egress corridors) or Building Common Areas (such as main entrance building lobby). Vertical penetrations for the private use of a premises (internal stair or elevators) are included in the area total, unless noted otherwise. Where alcoves, recessed entrances or similar deviations from the corridor line are present, floor area is computed as if the deviation were not present. Exterior tenant areas behind the building line such as recessed vestibules, entrances or other similar deviations are included in the floor area total. One story bay-windows projecting beyond the building line are not included in the floor area. Multi-story building projections extending beyond the building line are included in the floor area. No deductions are made for columns and projections necessary to the Building.
